## 2. Description

A new kind of the Snake game where one has to fight multiple evil snakes, driven by artificial intelligence, for space and food in order to survive.

Each level is more challenging with increasing number of evil snakes to fight. There are 5 levels in the free version and dozens of increasingly difficult levels in the full version.

The game offers:

- Intuitive gesture-based control
- Various types of helpful and harmful objects to investigate, consume, avoid, or use in the fight.
- Several snake speed options
- Several color options

Player can upgrade to the full version or buy many extra lives at any moment.

The full version offers:

- Dozens of increasingly difficult levels from level 6 and up.
- More helpful and harmful objects

## 3. Short rules explanation

Outlive all the evil snakes to move to a next level

Turn your snake with a swipe of your finger

Do not hit walls, other snakes or yourself

Eat good objects and avoid harmful ones

#### 4. Full help text

The rules are similar to the classic Snake game, however in addition to your snake there are evil snakes competing with you for space and items.

Evil snakes are intelligent and frantically fight for survival. Your task is to outlive them: a level is won when there are no more evil snakes left alive.

Control your snake movement with a swipe of your finger anywhere on the screen in the direction you want your snake to turn (snakes can turn left or right).

A snake dies when it hits a wall, itself, or another snake. It may also die when it eats something harmful. It grows when it eats certain items, and the better the food - the more it grows.

It is up to you to figure out which objects are good and which are harmful, and how they work. Here are various items you will encounter:

- Food for the snake to grow longer.
- Poisonous objects that will kill the snake or temporarily paralyze it.
- Potions that can change the snake's speed, growth, or cancel the effects of other potions.
- Magic items that instantly kill one of the evil snakes or resurrect one of the dead evil snakes.
- An item that temporarily paralyzes all the evil snakes.
